DEVELOPMENT REVIEW COST AGREEMENT & ACKNOWLEDGEMENT

***PROJECT NAME:** _____

The Town of Johnstown engages external reviewers, including attorneys and engineers, to ensure appropriate review of all proposed land use actions and developments. We incur direct costs associated with notifications and publications of public hearings, ordinances, and land use actions. The Cost Reimbursement required by Section 4-91 of the Johnstown Municipal Code ensures that direct expenses incurred are reimbursed to the Town:

All development proposals, including, but not limited to, annexation, subdivision, zoning, rezoning, site plans and final development plans, shall require a cost agreement to be entered into between landowners or developers and the Town to provide for reimbursement to the Town for the cost of planning services, engineering services, legal services and consultants used by the Town to assist in evaluating landowners' or developers' requests and to assist the Town in negotiation, review, consultation and advice. Such agreement shall also reimburse the Town for other related costs, including but not limited to legal publication costs and administrative costs. The cost agreement shall require that the landowner or developer submit a deposit to the Town in the amount provided by resolution adopted by Town Council.

Initial Deposit. One project may include multiple types. An initial deposit is required for all projects. Additional funds may be necessary depending on the scale, scope, and quality of the project and plans, and will be requested by the Town, as needed. Unused funds, after project completion, are fully refundable.

FILE NAMING AND DIGITAL SUBMITAL REQUIREMENTS & STANDARDS

File Naming Conventions

To assist the Town in long term file management, it is a requirement that all files be named according to the following conventions to prevent the loss or damage of a file. Any files that *do not* meet the naming convention can be rejected until submitted correctly and will not be incorporated into the file review. To avoid unnecessary delays by the Town or referral agencies ensure that the files are appropriately named upon submittal. Each project may require discernment for appropriate naming – contact the Planning team with any further questions.

Naming Outline: Submittal (#) _ Project Name_ Project Type/Filing Number_ Submittal Date

Example: *Submittal 3 Mountain Bluebird Estates Construction Drawings 09-14-2025*

Digital Requirements/Plat Standard

To avoid delays, ALL documents must be high quality, usable, and accurate drawings must be provided.

- All drawings must be created using the NAD83 Colorado State Plane, North Zone, in US Feet. *The combined scale factor for the project, used to convert from NAD83 to the ground coordinates, must be document on the first page of the PDF copy of the plats or plans.*
- Digital Line work must be topologically clean: continuous lines, intersections close, no gaps, dangles, etc.
- All features should be closed polygons or text. Benchmarks may have been point features. Road Centerlines may be line features.

Final Digital Submittals:

Once a project is completed, the Town must receive all final documents, plans, and report in both hard copy and in one or more digital formats based on the type of document.

- Studies & Reports – *PDF*
- Development Plans - *PDF*
- Plats – *PDF & DXF, DWG, or GIS shapefile*
- Construction Documents - *PDF & DXF, DWG, or GIS shapefile*
- As Build CDs - *PDF & DXF, DWG, or GIS shapefile*

NOTE: All Civil 3D or MicroStation files must be exported to DWG, version 2013 or earlier.

The PDFs become of the public record. The drawing files are only used to update town maps, plans, or records, to share limited data with development as needed to inform design and with other agencies in the execution of a public plan or similar civic purpose.
